Dream- A sister in the Lord writes

I was watching Elon Musk scurry around trying to get things done, as he could not seem to be organized. He turned and looked at me and asked if I wanted a job. I said yes and that I would help him get things organized, but told him that before I do he would have to sign a contract as I was not going to let him walk all over me. He agreed and said he would pay me \$80,000. I then went back and told the person that I work with that I had another job and that I would be leaving. She got mad. That was the end of the dream.

She added, "I don't know this man, other than that he owns Tesla."

Interpretation- While this is a prophetic dream concerning things happening in our world today, it is also a personal dream to the dreamer. Many things have happened since this dream came, almost two years ago, and because of what has come to pass since, the interpretation needs to be updated.

In this dream, the Spirit is using Elon Musk as a type and symbol. Elon Musk, according to what we are told, is the richest man in the world. He represents the richest powers in the world today, and the richest and strongest economies are the USA and China. It is obvious that the dream is a word that pertains to the U.S.A, in particular. For a time, we even saw the literal Elon Musk adding chaos to what was already in disarray in our government, but the Spirit is saying that the financial powers that rule this country and the world, will not be able to find their way out, without divine intervention, which God is providing.

The dreamer represents the called-out company of sons of God, of which she is a part. And so, the dream is saying that the Lord is sending divine intervention to bring back order, and it will be costly. 8 is the number of new beginning, and \$80.000 speak of the multi-power of the age to come, which is the time of God's government or kingdom in the world. This is the only way, any order can be restored in our own country, and in the world.

This is what God is saying through this dream. The devils know this and tremble, and this is why there is so much violence, warfare and unrest in the world. The powers of darkness know that their time is short, and they are being exposed everywhere.

In the last 20 months since the Lord spoke this Word, we have seen the unfolding of this very dream. What looks like chaos to the natural man, is actually the powers of the sons moving the powers of man's wisdom out of the way, and bringing in the government or Kingdom of our God. The powers of darkness are riled up, knowing that they have but a short time left. Everywhere in the world, they are being exposed. Man's wisdom and authority is dying and the wisdom and power of our God and of His Christ will soon be ready to be revealed to the world.
