Michael Hartung writes,

Hi Jackie,

Recently I had a dream that really stood out to me. I felt I should share it with you.

In the dream, I was in Telluride, Colorado. (Telluride is a historic mountain town that sits in a valley with soaring mountain peaks around it. It's absolutely beautiful. It also has many historic and beautifully preserved Victorian houses and shops. It is a rather secular town though.) In the dream, Elon Musk buys up all the houses and other structures and destroys them and clears them away, leaving a huge void. When I saw it, I got angry with him for destroying such a beautiful way of life. I understood that he had some vague plans for what to replace the buildings with, but he had not yet committed to anything. It resulted in an enormous void and the feelings of an uncertain future.

This dream came several months after the dream about Elon Musk that you wrote about. I believe what you wrote about Elon Musk in that letter applies here: "Elon Musk represents the most powerful and richest powers of the world; the systems and governments that rule over the people."

My understanding of my dream:

The powers/systems/governments of this world are destroying our way of life in this country. They have other goals in mind for what to replace it with, but they are ineffective at conceiving of and accomplishing their ends. Though the result appears to be awful, leaving us with a huge void where the American way of life used to be, we are not to get angry. Instead, we should see this as preparation for what the Father has planned next: Jesus in His body of sons filling the void with the rule and reign of the Kingdom of God—an entirely New Way of Life!

I would value your input on the interpretation of the dream if one comes to you.

Blessings to You,

Michael Hartung

Jackie's input-

Nov.20, 2025

Michael, this is a true prophetic dream, and it is in process now. I certainly agree with your interpretation, and about who is destroying our peaceful and beautiful way of living. The powers of greed and love of money have now taken control of the world's populations. The weapons used in warfare today are exceedingly expensive, and the ruling systems keep producing more sophisticated and more destructive weapons all the time.

Elon Musk, called the richest man in the world, represents all of these powers. I believe that world leaders have totally lost their sense of decency and direction. They are now in a zone of "insanity." Men of power are absolutely driven by their lust to be recognized for their importance, their achievements, their authority and ability to scheme. These are also the things that are destroying our way of life. The dream is clear, this will continue until the work is completed. It is God's quick work, to make way for His Kingdom on earth as it is already in the hearts, (heavens), of His people.

I was interested in the name of that beautiful town, Telluride. This is what I found, "The name Telluride is derived from the mineral tellurium, a rare element found in the area's gold and silver ores during the late 19th-century mining boom." Gold speaks of the nature of God and silver is the salvation of Christ. Gold and silver are buried in the ground, and that was not touched in the dream. God's treasures are in Christ in His people, and it is all hid underground until ready to be revealed.

This dream makes me rejoice. It is such an exciting and encouraging word for the body of Christ. I thank you so much for sharing. Such words make the body of Christ stronger and richer in the things that count.
