

In Jonathan Cahn's book "The Book of Mysteries", on day 331 which he titled "The Jubilee Man", he makes the following points:

In the year of Jubilee, the trumpet (actually shofar) would sound.

The Jubilee is the year in which the land would return to its original owners.

In 1917, which was a Jubilee year for the Jews, in the midst of the First World War, the British Empire issued the Balfour Declaration which gave the land of Israel back to the Jewish people – which were its original owners. The Jews had not owned the land for 2000 years.

Also in 1917, a baby boy was born into a Jewish family. The family's last name was Goren. Goren is the Hebrew name for the Temple Mount in Jerusalem.

In 1967, 50 years later, another Jubilee year, the Holy City of Jerusalem was restored to the Jews. The name of the rabbi that blew the shofar on the Temple Mount was Rabbi Goren, that same individual.

Thinking on this, I was musing on the thought: "What IF America had a Jubilee".

Now, today, December 19, 2024, we have an incoming president, President Trump. His name means "trumpet". His campaign slogan was "take America back" i.e. give the land back to the Americans (the original owners).

The result of the votes, despite what the media poles indicated, show that many American voters of all types (white, black, Hispanic, legal voting immigrants, etc.) must have agreed with him - that America needed to be taken back.

Some would say that the 2020 election had much "voter fraud" and that the the current administration did not rightfully belong there. Dinesh D'Souza's movie "2000 Mules presents some strong arguments supporting that fact.

IF America did have a Jubilee, and it was in the manner of Israel's Jubilee, then is really doesn't matter whether Trump rightfully lost or lost because of fraud – because The Lord would have prevented him from serving in the 2020-2024 term. He COULDN'T have become president in 2020 because prophetically, America's Jubilee years are XX76 & XX26. The next Jubilee for America is 2026 and "the Trump" would have to sound then.

Since President Trump has already served 1 term, the ONLY 2nd term he could serve and fulfill the Jubilee would be 2025-2029.
